http://blog.belatrixsf.com/you-cannot-miss-our-upcoming-webinars/

In the next few weeks we have a series of webinars scheduled which we hope you will be able to join.

First up, we're excited to bring you a webinar examining our predictions for software development in 2017. The world of technology and software is changing rapidly, with new technologies emerging at breathtaking speed. So in this webinar we will examine:

- How a plethora of new technologies will emerge to provide new business opportunities in different industries
- The continued importance of Agile development and continuous delivery
- Why mobile and mobile testing will be top of mind in 2017
- Case studies of how organizations are responding to this new world

Mobile testing, a webinar for Spanish speakers

Meanwhile, continuing our series of webinars for Spanish speakers, we're delighted to bring you a webinar on plans for effective mobile testing (Mobile Testing: Planes de acción efectivos). The webinar will examine:

- The difference between native and web applications
- What you need to check in testing mobile applications
- The importance of the decision matrix
- What you should take into account when defining your testing plan for native and web applications

We look forward to seeing you there!
